*The All Together Now Advantage<sup>®</sup>  
Gail Voisin Executive Coaching, 2011*

As an executive coach over the past twenty years, I feel honoured and privileged to have worked both one-on-one and in groups with some of the brightest minds and most brilliant executives in corporate America in a variety of industries. Over these years, I have developed a method which has since become a compelling brand called **The All Together Now Advantage<sup>®</sup>**. The above diagram illustrates this model.

**The All Together Now Advantage**<sup>®</sup> makes the case that by aligning Vision, Leadership and Wellness, both personally and organizationally, you naturally position yourself to achieve extraordinary success in both your personal and business life. It demonstrates that when executives align their personal and organizational vision with their leadership ability and wellness, they can live the life of their dreams.

When understood and practised with commitment, **The All Together Now Advantage**<sup>®</sup> has had profound results for the hundreds of corporate executives that I have coached. I believe it can do the same for you! You will achieve greater results while expending less energy. You will also become more resilient for meeting future challenges.

In addition to explaining the power of aligning vision, leadership and wellness, the book also provides **two self-diagnostic tools**: one to evaluate how strongly your performance is interconnected to your wellness; the other to help you benchmark and measure your marketability to achieve extraordinary success. It's a **compelling journey – not a destination!**
